The Right of Way and Depot Question. Last Thursday Evening quite an animate setting was held for the purpose of discussing resolution in which it was proposed to prohibi the Railroad Company from putting their depoany nearer the river than Second street, and from running cars to the river, except coal cars, or those used in constructing the railroad. No freight or passenger cars were to be allowed to approach nearer the river than Second street After hearing able and eloquent speeches for and against the resolution the writer of it moved Its adoption. There was no second. A motion was then made and carried, that the meeting adfourn sine die. With this, we earnestly hope the subject will drop, so far as public meetings are concerned. There is no occasion for any further excitement. We have entire confidence in the sound judgment of the Mayor and Council; and their past laborious, energetic and HIDES-Dry, prudent conduct is full guaranty that while they LEAD. old office they will act as they deem best for MOLASSES-Plantation, the city. OR, GASTRIC JUICE. repared from Bennet, or the fourth atomach of the or, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Pouginton, M. D. Philadelphia, Pa.

It is the chief diement, or great digesting principle of the Gastrie Juice—the solvent of the food, the purifying, preserving, and ainminiting agent of the stomach and latestines. It is attracted from the digestive stomach of the ox, thus forming a true digestive faith, precisely like the natural Gastrie Juice in its chemical powers, and transhing a complete and perfect substitute for it.

This is Nature's own remedy for an unhealthy seemach. No art of man can equal its curative powers. It cuntains no also

dissolve five pounds of roast beef in about two hours, out of the stomach.
